Nuance

Brintons

Take a walk in the ephemeral world.
Along the shorelines, between the
shadows of concrete monoliths.
In both nature and in the built
environment, we see shifting colors,
bold patterns, and the subtle way
they softly mute and merge into one
another. Awaken to the beauty of the
world around you - every nuance.

Beauty is in the details.

The layered texture of moss-covered oak. The worn patina of a well-used desk. The play of light and shadow shifting across sand dunes.

In nature and in life, beauty is in the details — and Nuance, Stacy Garcia's second collaboration with Brintons, invites the viewer to pause, take a breath, and awaken to the magnificence found in the everyday. Inspired by both the organic and the built environment, Nuance features neutrals drawn from shells, sky and sea, and patterns abstracted from rubbings, washes, and marks left in sand by the passing of time.

Respected for her inventive use of color, remarkable eye for pattern design, and insightful trend forecasting, Stacy Garcia is trusted by the industry's leading hospitality designers and product manufacturers, for designs that are both fresh and timeless. At Stacy Garcia, our mission is to empower and inspire designers to create distinctive environments that soothe the soul and add a sense of wonder to the experience of life. And our vision is to inspire people across the world and close to home, to create and live their best possible lives.

Brintons

“Take a moment to be present, right where you are,
and awaken to the beauty that surrounds you,
in nature — and in life. Every nuance.”
