**Details:** 15,000m<sup>2</sup> axminster and hand tufted carpets  
**Date:** 2016  
**Designer:** HBA  
**Images:** The Westin Jakarta

*"Inspired by botanical and batik elements, the carpets at Westin Jakarta carry fluid, organic patterns represented in an abstract manner, with soft lime greens, dove greys and plum tones. The richly coloured ballroom carpet features a 29 colour pattern based upon batik motifs combined with a dramatic spray of abstract orchids. The contemporary, distilled floral forms continue in the Sky Lobby carpets, with a light lacework sub-pattern in the background echoing the striking textures of local textile patterns. When combined with the rich, wisteria-like chandeliers above, the carpets at Westin Jakarta serve to evoke the exotic essence of Indonesian culture, art and flora"*
